
BOOKS

SEE OVERLEAF FOR MODEMS

We have a large range of books that we can supply.
We keep a stock of the following books which we feel are of particular interest and have been read by the Demon Systems technical staff

The Whole Internet	**By Ed Krol.** User Guide & Catalog. **£18.50** Recommended reading for all users new to the Internet.
The Internet Starter Kit for Macintosh (TISK/MAC)	**By Adam Engst. £27.98** Invaluable for the Mac user. Over 600 pages. Includes a disk containing Apple MacTCP (retails at 60 US$) and several excellent utilities. WE STRONGLY RECOMMEND THIS TO ALL MAC USERS. We have developed our own installer disk with extra utilities and printed instructions to make the installation simple. This is included free of charge with every copy of this book.
The Internet Yellow Pages	**By Harley Hahn/Rick Stout. £21.95** Vast information directory of over 400 pages - what's out there and where to find it. Not essential but an invaluable companion to your Internet account. N.B. due to intervention by BT, this book has been renamed The Internet Golden Directory but the contents are the same.
TCP/IP Illustrated Volume 1 – the Protocols	**By W. Richard Stevens. £27.95** This hardback book provides the most comprehensive coverage of the TCP/IP protocols that we have found. Includes discussion of how these protocols work under various operating systems including Sun OS 4.1.3, Solaris 2.2, System V Release 4, BSD/386, AIX 3.2.2 and 4.4BSD
The Internet Connection	**By Quarterman/Carl-Mitchell. £24.95** System Connectivity and Configuration. This hardbacked book is ideal for the more technically minded user who is perhaps setting up a Unix system.
TCP/IP Network Administration	**By Craig Hunt. £22.00** From the acclaimed O'Reilly series, this book is intended for UNIX users mainly. Guides you through the world of TCP/IP.
sendmail	**By Costales, Allman, Rickert. £24.50** Essential for all users of the unix sendmail package. A most comprehensive book.
DNS and BIND	**By Liu. £22.00** For advanced UNIX users - Domain Name Service and BIND.
Learning Perl	**By Randal L. Schwartz. £18.50** Good starter guide complementing Programming Perl.
Programming Perl	**By Wall. £22.00** Library reference book for the powerful UNIX program language becoming increasingly popular. Perl is also available on DOS.
Practical Unix Security	**By Garfinkel/Spafford. £22.00** Is your system secure? Check it out with this book.

Postage on all orders:

One book	**£3** (except for SENDMAIL, Adam Engst TISK & TCP/IP ILLUST – where the postage is **£4**)
Any two books	**£5**
Three books or more	**FREE**

No VAT is applicable except for The Internet Starter Kit for the Mac which includes £0.48 VAT as it contains a disk.

Retail £299. **Our Price £200**

WorldPort PCMCIA 2.0
V.22, V.22bis, V.32, V.32bis, V.42, V.42bis. Group 3 Class 1 Fax V.17 14,400 with WinFax Lite software for the PC. Comes with special cable and CrossTalk software. Note that this a PCMCIA card only suitable for computers with a PCMCIA port. Retail £299. **Our Price £220**

Sportster
V21, V22, V22bis, V23, V42 (error correction), V42bis (compression including MNP/5), V.32 (9,600 bps full duplex), V32bis (14,400 bps full duplex) also includes Group 3 Class 1 Fax V.17 14,400 with Quicklink II software for the PC. Retail £199. **Our Price £110**

Macster
As for **Sportster** but with Apple Mac software (fax & microphone) and modem cable included. No PC software. Retail £199. **Our Price £135**

Sportster V.34
As for **Sportster** but with V.34 and V.FC **28,000. 115K DTE rate** (serial connection speed between the computer and modem). Retail price £299. **Our price £239**

V.Fast (V.34) Dual Standard
As for **Sportster** but with speeds up to V.34/V.Fast 28,800. Also Fax supports Class 2 as well. 115K DTE rate (serial connection speed between the computer and modem). HST mode 16,800 is of particular use if you intend connecting to bulletin boards which may only have high speed modems of this type. Retail £399. **Our Price £270**

Software: Please note that none of the software packaged with the above modems is suitable for connecting to the Internet and the contents are controlled entirely by US Robotics and not Demon Systems.

Delivery and delivery costs: Next working day delivery **£11.50** for one modem, **£2 each** per each subsequent. Please note that this does not include Saturdays or Sundays or Bank Holidays and we must have your order by 12 noon to make that day's despatch. Apart from collection at our offices, no other delivery method is available. If you cannot arrange for somebody to be at a credit card address, we can deliver to your work address - please ask.

Payment: Above are cash/cheque with order or credit card prices.
Please add £10 per modem if paying on account. All prices on this price list exclude VAT

High Speed Serial Cards	for the IBM PC with a buffered serial chip (16550A UART)	£35 (delivery £3)
	With two buffered serial ports	£51 (delivery £3)
Modem Cables	Please specify type. (PC: 25 pin or 9 pin, Sun, Mac)	£15 (delivery free)
Buffered Serial Chips	Individual 16550A chips to replace your PC's socketed chips	£16 (delivery free)

- ***If ordering a book, cable or card as well, you do not incur extra carriage.***
- ***If ordering a modem we can send a disk of software with which to connect to the Internet free of charge (normally £7.50 + vat) depending on your operating system – please check with us.***
